EDUCATION

Candidate for **Bachelor of Science in Commerce & Business Administration,** The University of Alabama
Graduation Date: December 2026   **Major GPA**: 4.33/4.0
Major: Management Information Systems

EXPERIENCE

August 2025 – Present

Undergraduate Teaching Assistant, *The University of Alabama, Tuscaloosa, AL*
Goal: Support student learning by reinforcing MIS concepts and assisting with coursework.
Value: Students gain an increased understanding in the fundamentals of management information systems.
My Contributions:
- Support over 100 students through individualized assistance on Excel functions, relational databases, and data visualization.
- Evaluate and grade 200+ assignments involving Excel modeling and database concepts, ensuring accuracy and consistent turnaround within 48 hours.
- Collaborate with the course instructor to prepare 20+ technical instructional materials and streamline administrative workflows.

May 2024 – August 2025

Club Operations Assistant, *Hayfields Country Club, Hunt Valley, MD*
Goal: Build leadership and operational skills by coordinating service workflows and supporting day-to-day operations.
Value: Delivered seamless member experiences by combining strong communication and organization with proactive problem-solving, resulting in smoother service operations and improved guest satisfaction.
My Contributions:
- Coordinated inventory restocking 4-5 times per shift, reducing service delays and improving operational efficiency during peak hours.
- Assisted with food running and guest service for 15+ tables daily, enhancing customer satisfaction and teamwork.
- Managed member check-in for 50-100 guests per day, ensuring secure access and a positive first impression.

December 2024 – July 2025

Server's Assistant, *Carrabba's Italian Grill, Hunt Valley, MD*
Goal: Support front-of-house operations by efficiently assisting servers, maintaining dining area standards, and facilitating smooth service flow to enhance overall guest experience.
Value: Contributed to an efficient, guest-focused dining environment by ensuring prompt service, maintaining high operational standards, and fostering collaboration among team members.
My Contributions:
- Delivered food and beverages promptly to 20+ tables per shift, supporting timely and accurate service aligned with brand quality standards.
- Performed side-work tasks, including stocking, cleaning, and resetting tables, ensuring readiness and cleanliness for continuous service.
- Collaborated with servers and kitchen staff to anticipate guest needs and streamline order flow, improving team efficiency and customer satisfaction.

TECHNICAL EXPERIENCE

Languages: Python, JavaScript, HTML/CSS, SQL, C#
Operating Environments: Windows, macOS
Business Tools: Microsoft Office Suite, Google Workspace, VS Code, GitHub, MySQL Workbench
